

Prisca is a hub-based movement for preachers, Bible teachers and speakers, to be encouraged, inspired, equipped and developed.

We are passionate about raising up faithful, empowered, Christ-like and creative communicators.

Our Hubs:

Prisca, meaning ancient, was born out of a desire to see preachers communicate the ancient Scriptures in today's world, and our hubs offer an effective means for developing this skill.

Prisca hubs provide prayerful community, stimulating training and ideas, input from preachers across the globe, rigorous feedback, friendship and accountability.

We are committed to:

Engaging deeply with the Bible text

The work of the Spirit in preaching

Effective communication

Attentiveness to context & culture

A programme designed by preachers for preachers, to help you grow in your God given gifts.

Prisca's programme is packed full of unique content and teaching tools to help you grow in your preaching technique and build confidence.

Our hubs are centered around our 'Text to Talk' resource, talk feedback resource, and videos to watch and discuss together.

Our hubs are made up of people from across different church denominations, which not only provides a wonderful opportunity to build unity, but also a unique way for your preaching gift to be developed!
